

A silver laptop is open and sitting on a field of green grass. The background is a soft-focus field of grass, suggesting an outdoor setting. The text is overlaid on the right side of the image.

complete solutions
for the life of your
IT hardware.

JUST Recycle IT
make the disposal
of your end-of-life
equipment,
simple, efficient
and secure.

Our services empower your company to embrace the recycling philosophy whilst simultaneously generating residual revenue from assets that were previously deemed to be worthless.

As a division of Circuit UK, which has handled large scale, end-of-life IT projects and provided trusted solutions for major global companies in the UK for over 10 years, we provide you with skills and experience that are unrivalled in the marketplace.

What does JUST Recycle IT do?

JUST Recycle IT is the only business of its kind in Australia to offer a complete solution for your redundant IT hardware.

We offer a full range of services including the collection, security, potential revenue recovery and environmentally ethical disposal of end-of-life IT equipment; offering you a simple, cost effective and satisfactory resolution to the management of your unwanted technology assets.

Our proven process covers:

- **Asset Decommissioning** – Our experiences in major, large scale, end-of-life IT projects over the past decade ensures that you can be confident every detail is managed and controlled from desktop removal right through to asset disposal.
- **IT Data Security** – (Secure Data Erasure) By utilising our processes, which guarantee the security of information and its subsequent irretrievable erasure, security-conscious organisations like yours can benefit from the green re-use of your equipment.
- **JUSTICE** – Our bespoke web based portal, enables you to track your assets through our entire process whilst giving you the security of audit ability and accountability.
- **Asset Redeployment** – By redeploying your assets, either within your business or via staff sales, you ensure maximum societal benefit by minimising your carbon footprint through re-use rather than replacement.
- **Asset Remarketing** – In understanding and exploiting specific sales channels we maximise revenue return for your redundant IT assets of all types, conditions and volumes.
- **Asset Recycling** – By managing the 3 R's (reduce, reuse, recycle), we offer an environmentally ethical disposal service with itemised reporting, aiming for zero landfill and encouraging environmental best practice.

Furthermore, our extensive range of managed IT support services can be tailored to meet your individual company requirements.

These offerings include:

- Fair Market Values offered in advance against most end-of-life IT equipment, allowing you to budget for new equipment.
- Managing your IT asset schedule, providing valuable and cost-effective insight into IT utilisation.
- Certified proof of erasure for every computer hard drive, which is done in accordance with the exacting US Department of Defence Sanitising standards, and CESG UK standards, both of which require equal or higher security than the current Australian DSD standards.
- Full accreditation and compliance with all current and forthcoming legislation, with a commitment to reducing the amount of electrical waste headed towards landfill.

JUST Recycle IT – Online Shop

Our refurbished IT equipment can be purchased from our online shop www.itoutlet.com.au. This offers you an environmental and economic alternative to purchasing new IT equipment at a premium price.

We also sell at auction, to the trade and export via an established, constantly evolving sales channel.

Why use JUST Recycle IT?

Our strong and on-going commitment to the ecological considerations of corporate social responsibility and dedication to the highest standards of ethical disposal of end-of-life IT equipment and secure computer recycling means that:

We do not just return value to you; we maximise return value.

We do not just dispose of IT waste; we do it ethically and environmentally.

We do not just erase and destroy data; we do it securely and irretrievably.

We do not just process your hardware; we audit and certify each item.

JUST Recycle IT will organise the complete logistics of the removal of your redundant IT equipment, ensuring minimal disruption to your business.

JUST Recycle IT is GITC approved by the Queensland government. Our GIC number is Q-3323.
